About the Programme

The UPSC Personality Test: Beyond Knowledge

The UPSC Personality Test is not simply about testing what you know. It is designed to assess who you are as a person—your values, integrity, thought process, and how you handle challenging situations with grace and composure.

Your performance here often proves decisive in determining your final rank and selection. The Interview Board examines your maturity of judgment, clarity of thought, and depth of understanding on diverse issues. It is during this interaction that your true potential comes to light—revealing the qualities that define a capable and confident civil servant.
